GAS ORDINANCE AGAIN DELAYED

[Concluded from Page 3.]

so as to save it from the delay consequent upon going back to common council, and it was with reluctance they voted for Mr. Clemons' amendment, although the amendment was absolutely essential to make the tax clause of the ordinance binding. Two of the friends gardens. of the measure, in fact, voted against this amendment. They were Messrs. Evans and Nageli.

The ordinance passed first reading by the 14 to 7 vote and, under the rules, went over for printing.

During the discussion of the proposed amendments, Mr. Chittenden and Mr. Merriman both referred to the allegations that the similar ordinance vetoed last year had been passed by questionable methods and that the franchise will be used solely to "squeeze" the Scranton Gas and Water company.

Mr. Chittenden argued that when the new company sold out to the old company the latter would make even for the expenditure by increasing its rates | Contractor James McNally's time for to the public. To prevent this, a limit should be fixed to the price to be charged by the company operating under the new franchise.

Mr. Merriman expressed surprise that the council gave such general support to a measure which had been vetoed once because it was put through with the use of money. No one made reply to any of the declarations of Messrs. Chittenden and Merriman.

TRIED TO KILL IT.

Mr. Clemons made a final desperate to indefinitely postpone action on it. but thirteen of the "fourteen friends" were solid against the move, and it went the way of the others. The one to go over to the minority was Mr. Von

Mr. O'Boyle startled, or, at all events, meant to startle the council by an expose of municipal rottenness which had no equal since the days when so many of Mr. O'Boyle's fellow-members had the near future by the contemplated ex- attached to their titles of councilmen, but the solid men of the council had anticipated the "expose" and with very few explanatory words made Mr. O'Boyle and his sensation shallow and

He had discovered that a man up in Nay Aug park was drawing pay from was employed by the county to supervise the work of the prisoners who are engaged in improving the park. The city furnishes the teams for this work and by an arrangement with the county the city officials paid part of the man's wages in consideration of his extending his supervision to the teamsters. When such councilmen as Vaughan, Chittenden, Clemons et al. explained and lauded the action of the city officials in making this arrangement, Mr. O'Boyle's "expose" fell flat. The total expense to the city for work done at the park by prisoners since April 1, last, amounts to \$88.13.

The first measure introduced last night was a resolution by Mr. Ross, calling for plans for a bridge over the river at Race street, which was washed away by the spring flood. This is one of the improvements which it was intended should be cared for by the surplus revenue from liquor licenses, made unavailable by the cutting down of the tax levy with a view of making campaign thunder for the Democrats. Where Mr. Ross proposes to get the money to replace the bridge has not as yet been disclosed.

ers of West Park, Mr. McAndrew presented an ordinance for a sewer system in West Park and an ordinance extending the operations of the ordinance against roving cattle, to cover the First district of the Twenty-first ward, except that portion lying west of Filmore avenue, between Pettebone and Dickens streets. When the ordinance was passed some ten years ago, the territory of the Twenty-first ward in question was pretty much a common pasture lot. Recently it has built up rapidly and the property owners

McAndrew and Von Bergen, respectively, establishing the fence lines of the thoroughfare and permitting the director of public works to use his judgment as to narrowing the roadway at occasional points for the purpose of saving shade trees. Both resolutions were adopted.

Mr. O'Boyle introduced an ordinance for paving Scranton street from the river to the Bloom tracks. Mr. Von Bergen introduced an ordinance for a bath tub in the Liberty hose house. A resolution presented by Mr. Quinnan was adopted, extending to November 1 laying flag walks in the Twelfth ward. The sewers and drains committee reported favorably an ordinance for a sewer on Section E, of the Fifth sewer district, in the Second ward, and a resolution authorizing Howell Morgan to connect his property, corner of Luzerne and Sixteenth streets, with the city sewer. The resolution was adopted. A resolution directing the director of public works to enforce the ordinance for laying flag walks on Capouse avenue, between New York street and the Mr. Clemons made a final desperate effort to kill the ordinance by moving ported from the streets and bridges committee and adopted.

SEWER IS TOO SMALL.

Regarding the Ninth district sewer Director Roche wrote councils that the cause of the overflows was that the capacity of the sewer was too small for the water it is called upon to carry. and that some relief must be gained in diversion of the Dunmore surface water now emptying into the sewer.

Chairman Oliver announced his appointment of Messrs, Schneider, Regan and Quinnan as the selectmen's representatives on the joint committee which is to induce the Scranton Railway company to issue transfers beboth the city and the county. The man tween the South Side and Believue

THE MARKETS

Wall Street Review.

Wall Street Review.

New York, July 17.—The aggregate sales of stocks today show a further increased volume of dealings, which fairly crossed the million share mark. Substantial upward progress was made and the market was broad in the sense that a large number of different securities were dealt in and the trading was also better distributed amongst the few stocks in which the principal activity was centered. The same preference was shewn for the low priced stocks today, with the exception of a speculative incursion into the trunk lines and Vanderbilts. An attempt was made to bring the speculation back into the high-priced western railroads, but it will be observed that the desire to take profits on the considerable advance which those stocks have had was still too eager to allow much upward progress. The United States Steel stocks rengwed the struggle to advance, but again met heavy sales at every stage. Some of yesterday's conspicuous low priced stocks were acutely affected by profit-taking. Total sales, for the day, 1,124,600 shares.

Bonds were active and firm. Total sales, par value, \$4,031,000. United States refunding twes and the old fours declined is per cent, on the last call.

Chicago Grain Market.

Chicago, July 17.—Corn held the centre of the speculative stage through today's dealings and the July options made very erratic turns for a dead deal. Conditions were remarkably bearish in the coarser grain but support by the bull crowd that looked very queer considering the announcement that the bull interest had abandoned July, gave the market good strength. Wheat and oats had crop figures against them and made good advances for this reason, alded to some extent by the corn improvement. At the close July corn was %c. lower; September corn, 1½c. up; Sept. wheat, %c. higher, and Sept. outs, %c. higher. Provisions closed 7½ to 12½c. lower; Cash quotations were as follows:

George A. Treadwell Mining Co.

are situated on the Verde Copper Belt in Yavapai County, Arizona, just south of and on the same belt with the prop-

United Verde Copper Company. It has been proven recently by sworn testimony in open court that copper was actually produced on the Verde Copper Belt at three and a half cents

a pound. The GEORGE A. TREADWELL COMPANY has the largest and best holdings of any company operating on the Belt. In fact, it has pretty much all there is of value on the Belt except the property of the United Verde Company.

It will produce copper as cheap asif not cheaper than-any other company operating in that district, and much cheaper than it can be produced

anywhere else. The gold and silver values in the ore are ALWAYS sufficient to materially reduce the cost of the copper, and

SOMETIMES enough to bring the cost of the copper down to nothing. We are entirely satisfied with ten cent copper, and at that price can produce it at a handsome profit and pay

generous dividends. Can any other company in the field except the United Verde do as much? Our capitalization is three millions and the par value of the stock \$10 a share. A limited amount of the stock is for sale at \$11 a share

up to July 20th, and on and after that date at \$12.50 a share. Make checks payable to the order of the GEO. A. TREADWELL MINING CO. and send to
